

An aerial photograph of a rural landscape, likely in North Carolina, showing a property boundary outlined in red. The boundary encloses a large area of dense, brownish forest. Within this boundary, there are several blue-shaded areas representing water bodies, including a small pond in the upper right and a larger, irregularly shaped pond in the lower right. A road, labeled 'MCDADE SPRING RD', runs diagonally from the bottom left towards the center of the property. To the right of the property, another road, 'CEDAR CREEK LN', is visible. The surrounding area includes green fields and more forested land. A scale bar at the bottom right indicates distances from 0 to 800 feet. The Google logo is in the bottom left corner, and copyright information for 2023 is at the bottom center.
