PROPERTY DESCRIPTION

This 722 acre parcel provides all the nature that a buyer could ask for. Varying timber types and wetland mosaics make this property quite diverse with jack pine, red pine, spruce, tamarack and aspen as the primary woodland species. This is considered to be a moderately high density moose concentration area and we have seen plenty of wolf, deer and bobcat tracks on the property. The land is located near the Dead River Basin which is known to be a primary small mouth bass fishery.
